

# Mah Jong Cards

version 1.4 Original

by Gareth J M Saunders

## Why Mah Jong Cards?

While traditional Mah Jong tile sets are heavy, and therefore not the most portable, you can quite conceivably take a pack of Mah Jong cards anywhere.

## The Mah Jong Set

This file contains enough cards to produce a full 144 card set, including seasons, flowers and an extra 8 jokers.

## Font Used

I have used, in this version, the freely downloadable truetype font called Mahjong.ttf available from [www.asahi-net.or.jp/~mn8y-kt/font/font.html](http://www.asahi-net.or.jp/~mn8y-kt/font/font.html)

## Colour Scheme

I have adopted the following colour scheme for cards, which keeps with the traditional association between the suits and dragons (with thanks to Tom Sloper):

Bamboo	—	Green
Dots	—	Black
Characters	—	Red
Winds	—	Blue
Dragons	—	As Dragon
Seasons	—	Black
Jokers	—	Brown

## Printing

Use thick card. If the card image shows through the card you can print a disruptive backing image on the reverse side of the card before cutting. An appropriate image is available in PDF format on my website.

To produce a full set of 144 cards please print pages 2-5 (Bamboos; Dots; Characters; Winds, Dragons and Jokers) four times each. You need only print the Seasons and Flowers once.

These cards are copyright © 2001-2003 Potting Shed Designs / Gareth J. M. Saunders
